TIME FOR UNITY AND ACTION This is no time for faultfinding among the people of Arizona as to who is to blame for the present condition of Arizona as regards the impending danger of joint statehood. The condition confronting as new is one of alarm at eminent danger to the autouomy of Arizona. According to the statebood bill now pending in the United States senate the new state to be created will be completely under the domination of the people of New Mexlee and the people of Arizona will be forced into a government in which they will have little if any part in providing. We will get the name of the new

state and New Mexico will get every-

In fighting for statehood we believe that the people of Arizona have at all times been patriotic and done that which their bonest judgment told them was best under the existing circumstances. In the recent compaign it was maintained that it joint statehood way to be averted we would have to raly upon the democratic senators to defeat the bill by filibustering; the present attitude of the leading republican senators proves that this democratic contention was correct. Unless the democratic senators now defeat the the impending doom will engalf Arisona and we will be merged into New which to our mind will be wretched.

The people of Arizona bave proved 200a; we have a territorial university branches of educational study; we of the boss or the man who is buying have two normal schools, and teachers turned out from them rank with those

They have knocked for when denied have redoubled their energies in the work of better preparing themselves for the boon to which all the territories had been admitted ticians and their motives may be misto statehood without any attempt to construed, whereas the presence of one of the territories was cut in twain and these gentlemen we believe would go territories granted statehood in the past | Arizona and New Mexico.

no attempt was ever made to merge one into another before admission until now. Is it any wonder that Arizonans should protest now against the passage of the joint statehood bili which destroys all the rights of Aritona to self government which was guaranteed by all former precedent when the territory was cut from New

When Arizona was created into a territory it was because of the impassable mountain ranges which divided Arizona from New Mexico; since then railroad building has brought the people of the territories into closer touch, and the fact remains that a state made to include both territories would be unwieldy and could not be successfully or economically administered.

The very fact that the two governments are to be merged into one will cause a spirit of sectional feeling and ealousy which create a condition un- 2 der which it will be impossible to have a government behind which a united & and harmonious people will stand and

And for all these years of toil and struggle and danger in the work of fitting Arizona themselves to be worthy of statehood for statehood we are now offered the by their indomitable industry and per. opportunity to join New Mexico in sistent effort in the establishment of statehood and lose our political idenone of the best and most liberally sup. tity; lose our right to self governpurted public school systems to be ment; lose our handsome capital at found in the United States.
